INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference 17881-10-1PC	FOR FURTHER ACTION	see Notification of Transmittal of International Search Report (Form PCT/ISA/220) as well as, where applicable, item 5 below.				
International application No. PCT/US03/35294	International filing date (day/mont 04 November 2003 (04.11.2003)					
Applicant BIOARCTIC NEUROSCIENCE AB						
This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau. This international search report consists of a total of sheets. It is also accompanied by a copy of each prior art document cited in this report.						
 Basis of the Report With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. 						
the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)). b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international						
search was carried out on the basis of the sequence listing: contained in the international application in written form.						
	rnational application in computer read	dable form.				
furnished subsequently to	furnished subsequently to this Authority in written form.					
furnished subsequently to this Authority in computer readable form.						
the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.						
the statement that the infor been furnished.	mation recorded in computer readable	e form is identical to the written sequence listing has				
2. Certain claims were foun	d unsearchable (See Box I).	•				
Unity of invention is lackWith regard to the title,	Unity of invention is lacking (See Box II).					
the text is approved as sub-	mitted by the applicant.					
	ed by this Authority to read as follows	3:				
5. With regard to the abstract,						
the text is approved as subj						
within one month from the	d, according to Rule 38.2(b), by this date of mailing of this international se	Authority as it appears in Box III. The applicant may, search report, submit comments to this Authority.				
6. The figure of the drawings to be pu	iblished with the abstract is Figure No	0				
as suggested by the applica	nt.	None of the figures				
because the applicant failed	to suggest a figure.					
because this figure better c	haracterizes the invention.					

International application No.
